

Why Choose Eastern Health?

Eastern Health is Victoria's second largest health service comprised of seven hospitals and three emergency departments across 65 sites / 21 locations. We serve a population of more than 774,000, have total bed numbers of 1423 (54 at home), staff numbers of > 9,000 and a yearly budget in excess of \$800m.

Eastern Health was the first health service to win the Victorian Premier's Metropolitan Service of the year in 2013, and again in 2014. Our new Strategic Plan 2017-2022 states "we aspire to be GREAT in everything that we do, delivering great health care to our consumers everywhere, every time."

We deliver clinical services through seven clinical programs:

- Emergency and General Medicine
- Women and Children's Services
- Specialty Medicine
- Surgery
- Continuing Care
- Mental Health, Turning Point, Alcohol and Drugs
- Ambulatory and Community Health

Eastern Health has experienced a large capital works program across the health service resulting in:

- A 4th floor built on top of Angliss Hospital to house critical care services
- The creation of a new Box Hill Hospital (Building A) and an extensively renovated old Box Hill Hospital (Building B)
- A new Eastern Health Breast and Cancer Centre created at Maroondah Hospital
- An Award winning, Volunteer Falls Prevention and Wellbeing Program (Yale University) in use at Peter James Centre

Our extended Electronic Medical Record (EMR) at Box Hill Hospital enables you to work with one of the most advanced EMR systems in Australia. Designed to provide a comprehensive electronic patient record from pre-admission to discharge, the EMR allows healthcare teams to have fast, easy and real-time access to critical patient information at the point of care, using mobile and fixed computing devices. Transitioning from paper-based clinical systems to an electronic workflow, our EMR enables more efficient work practices and better support for clinical decision-making, resulting in improved safety and care for patients.

As an HMO at Eastern Health you will have the advantage of a large network of hospitals to work in, a broad case mix of patients and clinical services available to assist your ongoing training.

We have an active education and research focus and strong affiliations with some of Australia's top universities and educational institutions.

Eastern Health is interested in you and your career. Our intern program offers a range of options to support you to meet all necessary requirements for the completion of your internship. Our HMO2 program allows you to stream your career into Physician, Surgical or General training stream. The General stream is very suitable for training in a range of specialties including Critical Care, Emergency Medicine, Paediatrics, Obstetrics & Gynaecology, Psychiatry and General Practice. General stream rotations are across a range of acute, sub-acute and mental health programs and a variety of specialties.

Experience our friendly and supportive environment for your career development in 2019.

Strategic Plan 2017-2022

Our Vision for the future – Great care everywhere, every time

Our mission – Together we care, learn, discover and innovate

Our values – kindness, respect, excellence, agility and humility

Strategic initiatives and priority goals – healthcare excellence, leading in learning, leading in research and innovation and a values-based safe workplace
