

Why Choose Eastern Health?

Eastern Health is Victoria's second largest health service with over 67 sites across 29 different locations serving a population of more than 750,000. We have over 8,600 staff, manage a yearly budget of more than \$800m and focus extensively on continuously building a high quality healthcare system for the people we serve.

Eastern Health was the first health service to win the Victorian Premier's Metropolitan Service of the year in 2013, and again in 2014. Eastern Health achieved an outstanding accreditation result from the Australian Council on Healthcare Standards (ACHS), meeting all core standards, including 36 "met with merit" ratings – the highest score used to recognise excellence.

Eastern Health includes seven hospitals and three emergency departments. The new Box Hill Hospital (Building A) which began construction in 2011, has been 'open for business' since September 2014. The old Box Hill Hospital (Building B) is undergoing extensive renovation.

As an HMO at Eastern Health you will have the advantage of a large network of hospitals to work in, a broad case mix of patients and clinical services available to assist your ongoing training.

We deliver clinical services through seven clinical programs:

- Emergency and General Medicine
- Women and Children's Services
- Specialty Medicine
- Surgery
- Continuing Care
- Mental Health, Turning Point, Alcohol & Drugs
- Community Health

Last year at Eastern Health 135,636 patients were admitted to our acute hospital beds, 4655 babies were delivered and our Emergency Departments treated 151,810 patients.

We have an active education and research focus and strong affiliations with some of Australia's top universities and educational institutions. PMCV accredited Eastern Health in 2013 and recommended the health service be accredited for four years for the specified Intern and HMO2 training posts.

Eastern Health is interested in you and your career – our HMO2 program allows you to stream your career into a Physician, Surgical or General training stream. The General stream is very suitable for training in a range of specialties including Critical Care, Emergency Medicine, Paediatrics, Obstetrics & Gynaecology, Psychiatry and General practice. Rotations are available in acute, sub-acute, mental health and general practice. For those who have not yet decided on a career pathway, the General stream at Eastern Health offers you rotations in a variety of specialties.

In our friendly and supportive environment, we look forward to supporting you and your career pathway in 2017.

Eastern Health Mission

Provide positive health experiences for people and communities in the east.

Eastern Health Goals

We have identified five strategic directions that will help us achieve our mission:

- A Provider of Great Healthcare
- A Great Patient Experience
- A Great Place to Learn and Work
- A Great Partner with our Communities
- A Great Achiever in Sustainability

Eastern Health Values

We are also committed to upholding our guiding values of:

- Excellence
- Accountability
- Compassion
- Team work
- Integrity
- Respect
- Collaboration

These values reflect the Victorian public sector values and will provide you with guidance and assurance during your working period with Eastern Health.
