New GP for Yarra Valley Community Health

Yarra Valley Community Medical Service has welcomed a new GP to the clinic.

Dr Erin Hatherell is a well-respected doctor with a wealth of experience in family medicine and women's health.

"We are delighted Dr Hatherell will be joining us at Eastern Health. This appointment is a boon to our service and will be a huge benefit to those living in the Yarra Valley," Michelle Fleming, Eastern Health's Community Health Operations and Development Manager said.

Dr Hatherell is an experienced general practitioner, with a particular interest in polycystic ovary syndrome. She has worked at Yarra Junction Medical Centre for the last four years.

"Dr Hatherell's appointment comes at an exciting time for the clinic, as we prepare for the \$7.8 million redevelopment of Healesville & District Hospital and Yarra Valley Community Health," Ms Fleming said.

Yarra Valley Community Medical Service now has three GPs working at the clinic, with Dr Hatherell joining Dr Prathana KC and Dr Ken Tate.

"We have a fantastic GP team at the clinic, offering a range of primary care services, complementing the wide range of community health services we offer in Healesville, Yarra Junction and across the Yarra Valley," Ms Fleming said.

Yarra Valley Community Medical Service is a bulk-billing GP clinic located in White St, Healesville and is open Monday to Friday between 9am and 5pm.

To make an appointment, please call Yarra Valley Community Medical Service on 1300 793 622.
