

# A clinical research study for people with excess weight and type 2 diabetes

## TRIUMPH-2

**TRIUMPH-2** is a clinical research study for people with excess weight and type 2 diabetes. The study will test how safe and well the investigational medicine (the medicine being studied) works for weight management.

### Can I join this weight management study?

**Yes**, you may be able to join the research study if you:

- » Are aged 18 years or older
- » Have obesity or are overweight, with a BMI of 27 or higher
- » Have type 2 diabetes
- » Have been unable to lose body weight on your own
- » Are willing to give yourself weekly injections
- » Are ready to take part for the full length of the study (about 1 year and 9 months)

**BMI** stands for **body mass index**. It is a number that compares a person's weight to their height. It can be used to tell if a person may be at risk of some health conditions.
