## 1. POSITION PURPOSE

Eastern Health is committed to embedding lived experience as a transformative force within our mental health services. We recognise the unique value that lived experience brings—not only in enhancing service delivery but, most importantly, in improving outcomes for the people who use our services. Our Lived Experience Workforce is a catalyst for change, offering insights and expertise that cannot be replicated by those without personal experience of mental health challenges or supporting someone through them.

The Consumer Lived Experience Senior Peer Support Worker plays a key leadership role within the Eastern Health Mental Health & Wellbeing Program (MHWP). Working across a range of psychiatric settings, this role collaborates with staff and management to ensure meaningful support and participation opportunities for consumers. The position requires a high degree of autonomy and independent practice.

As an integral member of a multidisciplinary team—including nurses, psychiatrists, and allied health professionals—the Senior Peer Support Worker brings a complementary perspective to clinical care. Through structured peer support, they assist individuals in navigating their unique recovery journeys. By fostering collaborative relationships and open communication, the role empowers consumers to make informed choices, assert their autonomy, build hope, and reconnect with meaningful roles and relationships in their communities.

In addition to direct peer support, the Senior Peer Support Worker provides leadership within the peer workforce. This includes delivering advanced peer support in complex or crisis contexts and mentoring new staff. The role also contributes to service improvement by advocating for the inclusion of consumer perspectives in planning and evaluation processes.

The purpose and functions outlined in this position description have been developed using the Capability Framework for the Mental Health and Wellbeing Workforce (2023), and the Mental Health Consumer Lived Experience Workforce Discipline Framework (2025), as well as extensive co-design within Eastern Health.
